

# Canoes on Wheels

- Purpose: This program will provide canoes and related equipment on a no-cost basis to local schools for use in their outdoor aquatic activities.
- Curriculum Integration: Activity-based outdoor education will be integrated into high school ecology, history, and physical education curriculums.
- Educational Outreach Goal: To increase youth awareness, understanding, and appreciation of local natural resources such as rivers and lakes.
- Primary Program Objective: Every graduating student will have at least one opportunity for an adult-supervised paddling experience on local waterways.
